

## GVT: Genesis Vision - 3.5 of 5★

Category: Investments

**Short Description:** Genesis Vision is a decentralized trust management platform built on blockchain technology and smart contracts.

**Purpose and Aspects:** The first platform for the private trust management market, built on Blockchain technology and Smart Contracts. They combine exchanges, brokers, traders, and investors into a decentralized, open and honest network, making the financial market even more global.

**Abstract:** Genesis Vision is the platform for the private trust management market, built on blockchain technology and smart contracts. We unite exchanges, brokers, traders, and investors into a decentralized, open and fair network, making the financial market even more global. This will allow successful traders to rapidly scale their trading strategies by attracting investments from around the world. The smart contract technology that underlies the platform will provide an automated and absolutely transparent system for investment and profit distribution.

## Key Advantages:

- **For Investors:**
  - Easy to understand statistics of investment managers history
  - Invest via fiat or crypto
  - Transparent profit distribution
  - Investment portfolios available for all risk levels
- **For Private Fund Managers:**
  - Opportunity to attract international investors without advertising
  - Easily verifiable trading history
  - Promote your own strategy to potential clients
  - Personally branded, freely traded cryptocurrency
- **For Brokers:**
  - Decentralized platform
  - Attract investors from all over
  - Low barriers to entry
    - free software
    - free participation
  - Only trading history needs to be revealed

## Strengths/Opportunities:

- 400+ Broker partners worldwide with an anticipated 25% conversion rate over 2 years
- Solution to a real-world problem via smart contracts
- Increases transparency and trust in the current wealth management system
- The performance-based system promotes competition among managers
- The borderless system therefore large market opportunity
- Versatility among investment in the various asset class
- Trust management market estimated at \$70 Trillion
- Average daily turnover of the FX market is \$5.1 Trillion
- Advisory board has a strong background

## Weakness/Threats:

- Questionable developer and executive team strength
- Early stages in the roadmap, beta in development
- Potential legal implications and regulations regarding AML/KYC with securities trading
- Liquidity issues with small token supply
- Cheesy intro hype video
- Lack of platform activity
  - Top traders last trade was June 24th
- Low brand awareness/buzz due to low social media activity
- Blackmoon Crypto offers similar service
- Lack of financial model detailing expenses of the anticipated operational activity

## Google Search Trend:

Worldwide. Past 12 months. Web Search.

Numbers represent search interest relative to the highest point on the chart for the given region and time. A value of 100 is the peak popularity of the term. A value of 50 means that the term is half as popular. Likewise, a score of 0 means the term was less than 1% as popular as the peak.

## Summary:

Genesis Vision seeks to provide a solution to traditional FX and CFD markets seeking the ability to choose the most profitable asset manager in a transparent way. The product is well developed, the team has a strong background and an adequate strategy in bringing this product to market. The utilization of the GVT token for infrastructural function aids in the potential for a long-term increase in price. Failure to successfully market GVT has led to low adoption rates and lack of activity on the platform. The low adoption rate translates to low commissions thus revenue for GVT.
